Course: Principles of Sustainable Finance I

Course Outcomes	Statement
CO 1	CO-1 To understand the fundamental principles of sustainable finance and its relevance in the modern economy.
CO 2	CO-2 To explore the role of finance in promoting environmental, social, and governance (ESG) objectives.
CO 3	CO-3 To analyze frameworks, strategies, and instruments used in sustainable finance.
CO 4	CO-4 To assess the impact of sustainable finance on corporate performance and societal well-being.

**Course Outcomes (COs)
IInd Semester**

Course: English II

Course Outcomes	Statement
CO 1	CO-1 Borrowing from Other Languages: Over its history, English has borrowed words and influences from many languages, including Latin, Old Norse, French, Dutch, and others. This has contributed to its rich vocabulary.
CO 2	CO-2 Simplification of Grammar: Over time, English grammar has become simpler. For example, Old English had more cases, gendered nouns, and verb conjugations, many of which have disappeared in Modern English.
CO 3	CO-3 Influence of Literature: Writers like Shakespeare, Chaucer, and Milton not only helped shape the language with their creative use of vocabulary and grammar, but they also preserved it for future generations.
CO 4	CO-4 Colonialism and Globalization: British colonialism spread English across the world, and today, English is a global lingua franca, spoken by millions of people as a first or second language.

Course Outcomes (COs)

IVth Semester

Course: Human Rights Law

Course Outcomes	Statement
CO 1	CO-1 Define human rights: Understand the fundamental concept of human rights as universal, inalienable rights that every individual possesses by virtue of being human, irrespective of nationality, ethnicity, gender, or religion.
CO 2	CO-2 Explore the historical development of human rights: Study the evolution of human rights from ancient civilizations, through key historical events such as the Magna Carta, the French Revolution, and the abolition of slavery, leading to the modern concept of human rights.
CO 3	CO-3 Differentiate between civil, political, economic, social, and cultural rights: Understand the different categories of human rights and how they contribute to the protection of individual freedoms and dignity.

Course: Legal History

Course Outcomes	Statement
CO 1	CO-1 Introduce the concept of legal history: Study the evolution of law as a social institution, with a focus on how different societies have developed legal systems to regulate behaviour, resolve disputes, and maintain order.
CO 2	CO-2 Examine the origins of law: Investigate the earliest forms of law, including customary law, religious law, and tribal codes in ancient societies.
CO 3	CO-3 Understand the concept of justice: Analyse how different cultures have defined and approached justice, and how those definitions influenced the structure and function of legal systems.
CO 4	CO-4 Explore how religious beliefs shaped the legal systems in various cultures, including Jewish law, Islamic law (Sharia), and Canon law (the law of the Catholic Church).

Course: Law of Evidence

Course Outcomes	Statement
CO 1	CO-1 Understand the burden of proof: Study the concept of the burden of proof, which dictates which party is responsible for proving the facts of a case. Understand the difference between the prosecution's burden in criminal cases and the plaintiff's burden in civil cases.
CO 2	CO-2 Examine the standard of proof: Learn about the standard of proof required in different types of cases, including the higher standard of beyond a reasonable doubt in criminal cases and the lower standard of preponderance of the evidence in civil cases.
CO 3	CO-3 Study presumptions in evidence law: Explore legal presumptions (e.g., presumption of innocence in criminal law) and their role in shifting the burden of proof to the opposing party.
CO 4	CO-4 Study the Admissibility and Use of Expert Evidence

Course: Law of Crimes

Course Outcomes	Statement
CO 1	CO-1 Understand the elements of a crime: Learn about the essential elements required to establish a crime under the IPC, including actus reus (guilty act) and mens rea (guilty mind).
CO 2	CO-2 Examine criminal responsibility: Study the concept of criminal capacity and the factors that may affect liability, such as age, insanity, intoxication, duress, and consent.
CO 3	CO-3 Explore the classifications of crimes: Understand the different classifications of crimes under the IPC, including cognizable offenses, non-cognizable offenses, bailable offenses, non-bailable offenses, and compoundable offenses.
CO 4	CO-4 Examine offenses against the state: Study crimes related to national security and sovereignty, such as treason, sedition, and terrorism (Sections 121 to 130 of IPC)

Course Outcomes (COs)

Vth Semester

Course: Hindi-I

Course Outcomes	Statement
CO 1	CO-1 Enhance writing skills: Focus on improving the students' ability to write in Hindi across various forms, including essays, letters, stories, reports, and dialogues.
CO 2	CO-2 This objective aims at developing grammatical accuracy, coherence, and clarity in written communication.
CO 3	CO-3 Strengthen oral communication: Encourage students to converse in Hindi to improve fluency, pronunciation, and vocabulary. This includes group discussions, debates, and presentations to build confidence in speaking.
CO 4	CO-4 Promote listening comprehension: Develop the ability to understand spoken Hindi through various mediums, including audio clips, films, and lectures. Focus on comprehension and interpretation skills.

Course: Spanish I

Course Outcomes	Statement
CO 1	CO-1 Understand and use basic Spanish vocabulary and grammar.
CO 2	CO-2 Engage in simple conversations about everyday topics.
CO 3	CO-3 Read and comprehend short texts in Spanish.
CO 4	CO-4 Write basic sentences and paragraphs in Spanish.

Course: Family Law – II

Course Outcomes	Statement
CO 1	CO-1 The Muslim Law course provides students with an in-depth understanding of Islamic jurisprudence and its application in modern legal contexts.
CO 2	CO-2 Students will gain knowledge about the principles governing family law, inheritance, contractual relationships, and criminal law within the framework of Sharia.
CO 3	CO-3 The course also emphasizes the interaction between personal law and secular law in India and the role of judicial intervention and legal reforms in shaping Muslim law practices.
CO 4	CO-4 By the end of the course, students will have a comprehensive understanding of Muslim personal law and its application in the Indian legal system, and will be able to critically assess contemporary issues and challenges faced by Muslim communities in India and other parts of the world.

Course: Legal Language and Legal Writing

Course Outcomes	Statement
CO 1	CO-1 The Legal Language and Legal Writing course aims to build proficiency in the specialized language used in the legal profession, along with developing practical skills for drafting legal documents and writing persuasive legal arguments.
CO 2	CO-2 Students will gain a strong foundation in legal research, drafting, analytical reasoning, and professional communication, all of which are essential for success in legal practice.
CO 3	CO-3 By the end of the course, students will be prepared to write effectively and ethically in a wide range of legal contexts, and they will have the tools necessary for successful legal practice, whether in litigation, contract law, corporate law, or public policy.
CO 4	CO-4 Engage students in simulated legal scenarios, where they apply their legal writing and research skills to draft documents or provide advice based on a hypothetical case.

Course: Public International Law

Course Outcomes	Statement
CO 1	CO-1 The Public International Law course aims to provide students with a thorough understanding of the legal rules that govern the relations between states and other international actors.
CO 2	CO-2 By the end of the course, students will be familiar with the sources, subjects, and principles of international law, as well as its application in areas such as human rights, international humanitarian law, trade, investment, and conflict resolution.
CO 3	CO-3 The course prepares students to critically engage with global legal challenges and equips them with the tools to understand and navigate the complexities of international law in contemporary global affairs.
CO 4	CO-4 Analyze the role of international law in global development and the protection of economic, social, and cultural rights, particularly in the context of poverty, disaster relief, and humanitarian assistance

Course: Macro Economics II

Course Outcomes	Statement
CO 1	CO-1 The Macroeconomics II course aims to deepen students' understanding of the complex dynamics that govern national and global economies.
CO 2	CO-2 It combines advanced theoretical analysis with practical policy applications, preparing students to understand and evaluate the impact of economic policies, global trends, and crises.
CO 3	CO-3 By the end of the course, students should be able to critically assess macroeconomic phenomena, formulate policy recommendations, and utilize econometric tools to analyze real-world economic problems.
CO 4	CO-4 Debates in Macroeconomics: Engage students in contemporary policy debates in macroeconomics, such as austerity vs. stimulus, central bank independence, and the role of fiscal policy in economic stabilization.

Course Outcomes (COs)
VIIth Semester

Course: Labor Law –I

Course Outcomes	Statement
CO 1	CO-1 Students should have a solid understanding of the legal framework that governs the workplace.
CO 2	CO-2 They will be equipped to critically assess the interplay between labor laws and socio-economic policies, the role of trade unions and employer organizations, and the various protections afforded to workers in different sectors and jurisdictions.
CO 3	CO-3 Students will also develop the skills to address labor law issues both in domestic and international contexts, contributing to discussions on labor market regulation, worker protection, and social justice in a rapidly changing world.
CO 4	CO-4 Understand the obligations of employers in complying with labor laws, including the importance of record-keeping, compliance audits, and training programs for workplace rights and safety.

Course: Jurisprudence

Course Outcomes	Statement
CO 1	CO-1 The Jurisprudence course, often referred to as the philosophy of law, aims to introduce students to the fundamental principles and theories underlying the concept of law and legal systems.
CO 2	CO-2 The course explores the nature, function, and purpose of law, providing students with the tools to critically examine how laws are created, interpreted, and enforced. Students will engage with a variety of legal philosophies, schools of thought, and historical perspectives, gaining insight into the relationship between law, morality, justice, and society.
CO 3	CO-3 By the end of the course, students will be able to analyze and evaluate the different schools of jurisprudence, understand the key concepts that shape legal theory, and apply these insights to the practical functioning of legal systems.
CO 4	CO-4 Explore key theories about the nature of law, including natural law, positive law, and legal realism, and understand the distinction between law and morality.

Course: Alternate Dispute Resolution

Course Outcomes	Statement
CO 1	CO-1 The Alternative Dispute Resolution (ADR) course is designed to introduce students to methods of resolving disputes outside the traditional court system.
CO 2	CO-2 ADR techniques, such as mediation, arbitration, negotiation, and conciliation, offer parties an opportunity to resolve conflicts more efficiently, cost-effectively, and with greater control over the outcome than formal litigation.
CO 3	CO-3 The course aims to equip students with the knowledge and skills necessary to understand, apply, and analyse different ADR mechanisms.
CO 4	CO-4 Students will explore the principles, processes, advantages, and challenges of ADR, along with the legal frameworks that govern these alternative methods of dispute resolution. By the end of the course, students will be able to assess the suitability of ADR in various contexts and understand how these methods contribute to access to justice and the reduction of the burden on courts

Course: Data Analysis-1

Course Outcomes	Statement
CO 1	CO-1 To develop practical skills that complement academic learning.
CO 2	CO-2 To enhance problem-solving abilities and critical thinking.
CO 3	CO-3 To foster creativity and innovation through practical work.
CO 4	CO-4 To improve communication, teamwork, and leadership skills.
CO 5	CO-5 To ensure students gain competence in tools, software, and techniques that are relevant to their field of study

Course: Research Methodology

Course Outcomes	Statement
CO 1	CO-1 To introduce students to the principles and techniques of conducting academic research.
CO 2	CO-2 To provide the necessary tools and methods for designing, executing, and analysing research projects.
CO 3	CO-3 To develop skills in critical thinking, data collection, analysis, and interpretation.
CO 4	CO-4 To understand ethical considerations and the role of research in advancing knowledge.

Course: Interpretation of Statutes

Course Outcomes	Statement
CO 1	CO-1 The Interpretation of Statutes course aims to provide students with a comprehensive understanding of the methods, principles, and tools used to interpret and apply statutes (laws made by a legislative body).
CO 2	CO-2 The course focuses on equipping students with the skills needed to interpret legal texts, identify legislative intent, and resolve ambiguities or conflicts in statutes. Students will study the various canons of statutory interpretation and rules of construction used by courts to ascertain the meaning of statutes. The course will also delve into legislative history, judicial precedents, and the interaction between statutory law and constitutional principles.
CO 3	CO-3 The Students will explore the role of judges in interpreting statutes, the importance of context in legal texts, and the balance between the literal and purposive approaches to interpretation.
CO 4	CO-4 The Students will be able to confidently apply these interpretative techniques to real-world legal issues and understand how judicial interpretation can shape the application of law in various contexts.

Course Outcomes (COs)
Xth Semester

Course: Moot Courts, Observation of Trial, Pre-Trial Preparations and Internship

Course Outcomes	Statement
CO 1	CO-1 The Moot Court course aims to provide law students with practical experience in oral advocacy, legal research, and drafting of pleadings through simulated court proceedings.
CO 2	CO-2 It is designed to help students develop the skills necessary for real-world legal practice by participating in mock trials, arguing cases before a judge or panel, and presenting legal arguments on behalf of hypothetical clients.
CO 3	CO-3 The course helps students bridge the gap between theory and practice by providing a platform to apply their knowledge of substantive law and procedural rules in a courtroom setting.
CO 4	CO-4 Students will be prepared to represent clients in court, effectively communicate legal arguments, and contribute to legal research and writing, making them ready for future careers in litigation, legal practice, and dispute resolution.

Course: Body Language-II

Course Outcomes	Statement
CO 1	CO-1 To introduce students to the phases of trial and pre-trial procedures.
CO 2	CO-2 To enhance understanding of legal terms, courtroom etiquette, and trial strategies.
CO 3	CO-3 To develop skills for preparing cases for trial, including investigation, evidence collection, and witness preparation.
CO 4	CO-4 To expose students to real-world courtroom scenarios through observation of trials.
CO 5	CO-5 To provide opportunities for critical analysis of trial proceedings and the formulation of case strategies.
